PROFESSIONAL SUMMARY

Senior RCM Process Associate with over 5 years of extensive domain expertise in US Healthcare Revenue Cycle Management (RCM), specializing in denial prevention, claims appeals, and dynamic prior authorizations. Certified Meta Full-Stack Engineer seamlessly converting frontline clinical floor experience into high-velocity frontend automation utilities using Vue 3 (Composition API), React, TypeScript, and Vite.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, HTML5, CSS3

Frameworks: Vue 3, React.js, Tailwind CSS, Vite

Tools & Platforms: Git, GitHub, Vercel, VS Code, DOM Lookup

Domain Expertise: US Healthcare RCM, Claims Ingestion, HIPAA Compliance

PROFESSIONAL EXPERIENCE

Senior Process Associate (Automation Audit Lead)
May 2026 – Present

RCM Workshop • Kolkata, India

- Secure timely insurance approvals and complex prior authorizations for critical spinal and cardiology workflows to plug enterprise revenue leaks.
- Successfully rolled out local automation utilities to optimize multi-level prior authorization tracking pipelines.

Accounts Receivable Analyst
Jan 2026 – Apr 2026

Value RCM Solutions Pvt. Ltd.

- Managed end-to-end Accounts Receivable cycles, medical claims tracking matrices, and live payment posting verification.
- Decoded dense CARC/RARC rejection codes to engineer targeted appeals, completely eliminating floor onboarding backlogs.

Reauthorization Specialist
Jan 2023 – Dec 2025

Sunknowledge Services Inc.

- Managed high-volume workflows processing 50+ patient accounts daily across premier US insurance payers with zero compliance escalations.

KEY HEALTHCARE SOFTWARE PROJECTS

CrosswalkIQ • Live Use @ RCM Workshop (30+ Members)
Vue 3, Vite & TypeScript

Automates complex multi-level mapping across regional spinal anatomy CPT, ASA, and DX code matrices. Handles dynamic exception loops for payer-specific MAC overrides and eliminates interface latency by executing lookups locally in the client browser DOM.

AR Caller Pro
React.js & State Hooks

High-performance web workspace designed to bridge complex US Healthcare RCM operational business rules with modern frontend engineering patterns, optimizing Interactive Voice Response (IVR) phone trees and CARC/RARC tracking.

Prior Auth Initiation & Approval Engine
React.js & Python

Full-stack data stream platform built to automate raw patient account ingestion into 15-field audit-ready clinical evidence manifests, accelerating turnaround cycles by 90%+ and mitigating Timely Filing Limit (TFL) penalties.

Remit-X-Matrix Engine
Vue 3 & TypeScript

Client-side privacy-first EDI 835 Remittance Advice sandbox decoder. Dynamically parses unstructured legacy 5010 and future 008060 claim text paths using localized browser memory to remain inherently HIPAA-secure.

CERTIFICATIONS & EDUCATION

Meta Full-Stack Developer Professional Certificate
Coursera / Meta

Covering Advanced React, JavaScript Programming, Version Control, HTML/CSS layout paths, and Full-Stack Foundations.

Diploma in Mechanical Engineering
VMIT, Ranchi
